Translated from the "New Yorker Volkszeitung" by
H. J. STENNING

The present translation of the Manifesto of the Moscow (Third) International is published by the National Labour Press, Limited, in order to make available to the general body of Socialists a document of great interest and importance.

It should be stated that the paragraph relating to the immediate responsibility for the outbreak of war was omitted from the German version of the Manifesto, from which this translation has been made, but has now been added to make the document complete.

Manifesto of the VI. World Congress of the Communist International.

To the Workers of the World! To All Workers and Peasants! To All Oppressed Colonial Peoples! To the Soldiers and Sailors of the Capitalist Armies and Navies!

Comrades, Fellow workers!

The Sixth Congress of the Communist International, the representative of the revolutionary workers all over the world, of all nations, peoples and races, appeals to you from Moscow, the red capital of the new world, to prepare yourselves for the struggle against the ever more insolent forces of capitalism.

The master of the world capitalism, which exploits the labour power of the workers in the most brutal fashion, which sticks out their strength, which turns the proletarian into a unit of capitalist technique, which wears out its proletarian slaves in the process of production, which places the most wonderful discoveries of science in the service of the golden calf, which introduces ever more complicated and splendid machines, which introduces so an ever increasing extent the conveyor and flings millions of workers on to the streets, which gives them stones instead of bread, capital is now marching into the struggle against the rights and freedom of the working class. It is pressing the standard of living of the workers down ever lower, raising the bloody sword of the white terror and preparing for a new world war under the cloak of lying and bombastic phrases of world peace.

Imperialism has once again placed the question of war upon the agenda. From day to day the competition between the great powers and their finance-capitalist cliques is sharpening. Their attacks upon the colonies are becoming ever more brutal, their attempts to encircle the tremendous bastion the Union of Soviet Socialist Republics ever more determined.

The United States of America, at whose gateway the great statue of liberty rears its head to the sky, is laying its hands more firmly on new countries and continents, including also lands belonging to its chief rival Great Britain. American capitalism, firmly seated upon the treasuries bursting with gold recently minted from the sweat and blood of the late imperialist war, is continuing to undermine the Republic of Mexico, is sending punitive expeditions to Nicaragua and stations its warships in Chinese harbours. American capitalism has lettered a number of European and South American countries with the gold chains of credit, and does not hesitate to call these countries sharply to heel like dogs when they show any sign of resisting its sacred will.

Along the coasts of the Pacific Ocean and in the boundless territories of China, American capitalism collides with the predatory, insolent, cunning and deceitful imperialism of Japan, whose troops have occupied a considerable part of China. Japanese imperialism is carrying on a war of extermination against all the forces of the Chinese people which are not prepared to submit themselves to its barbaric regime of terror. Millions of Chinese workers, peasants and handworkers are bowed down under the iron yoke of Japanese imperialism, which is brutally crushing the Chinese people and preparing for a terrible duel with its American rival and at the same time purchasing itself a breathing space with provocative excesses against the Soviet Union.

These excesses form a link in the chain of the general hostility of the imperialist States to the State of the proletarian dictatorship, which is alive and developing, carrying out constructive work everywhere regardless of the venomous hisses of rage and the threatening rattle of sabres in the camp of the enemies who would like to intimidate the land of the soviet dictatorship of the workers and force it to its knees.

Despite all the contradictions and antagonisms which exist between the capitalist powers and despite their deep and growing mutual hatred they are preparing, with Great Britain at their head, a war against the Soviet Union. They are systematically preparing for war. They are preparing for war with all the means at their disposal. Every hour is filled with war preparations. The attempts of a number of powers, from the powerful United States to pitiful Austria, the unfinished invalid in the ranks of the European nations, to blockade the Soviet Union financially, the breaking off of diplomatic relations with the Soviet Union by Great Britain, the conclusion of diplomatic and military alliances against the Soviet Union, the constant provocative threats of the Republic of Marshal Pilsudski, this insolent militarist who has placed the so-called representation of the people into the category of prostitution and who rattles with the sabre in the same degree as he licks the boots of the generals and ministers of Great Britain and France, the almost open work of the General Staffs of the Entente in the Baltic States and in Roumania, and finally the insolent provocations of Japanese imperialism — all these things must act as a warning to all honest workers, for all proletarians and for all the oppressed all over the world who see in the Soviet Union their Fatherland wrung from the hands of the capitalists and rich landowners by the hot blood of the sons of the working class.

The "civilised" robbers, the bloodhounds of the General Staffs, the swindlers of secret diplomacy, the Bank magnates and the Trust kings who are carrying on a criminal war in China, bombarding Chinese towns, occupying Chinese territory, robbing the Chinese people of the means of its existence and destroying its most active sons, preparing attacks upon another country, organising their forces for a common action against the Soviet Union, arming themselves to the teeth, on land, on the sea and in the air, who are using science to prepare the most barbarous, destructive and inhuman war which will stifle the workers with poison gas and slaughter them in great agony with scientifically diabolic sicknesses, who conduct "hopeless trials" against the teachings of Darwin, the most prominent contributor to science in the nineteenth century, who issue laws against "dangerous ideas", who murdered Sacco and Vanzetti in the electric chair, such a horrible atrocity that millions held their breath in anxiety on end, to wreak for vengeance and curse the murderers, these civilised robbers, with their scholastic and pseudo-scientific lackeys, are raising a howl about the barbarism of the Bolsheviks and about their own "love of peace".

The history of humanity has never known anything so hypocritical and sanctimonious, so lying and disgusting as the present ideology of modern "pacifism" — imperialism whose foreign political tasks, could not be more criminal, most barbarous, most counter-revolutionary, most destructive form of warfare ever known. The more furious the armament race becomes, the more energetic become the official and unofficial agents of imperialism in their howls of "peace" and in the production of "peace pacts" and in the organisation of conferences and discussions, in the elaboration of projects and proposals for "peace".

The "League of Nations", the product of Versailles, the most shameless robber treaty of the last decade, cloaks the warlike work of its members by working out projects for disarmament. The Soviet Union has exposed this game, the great friends of peace refused to disarm when their hour was called. The diplomatic comedy turned into a vulgar farce. The mask of peace fell to the ground and the brutal features of imperialism were revealed to the whole world.

The "League of Nations" is first of all a counter-revolutionary organisation, but it is also directed against America. In consequence Dollar imperialism has put its own "pact"

The *TRUTH AND NOTHING BUT THE TRUTH ABOUT LOVESTONE AND THE COMINTERN

Lately Jay Lovestone has been broadcasting to the entire world that the COMMUNIST INTERNATIONAL HAS CHANGED ITS LINE AND HAS ADOPTED THE LINE OF THE LOVESTONE-BRANDLER OPPOSITION. The official organ of the Lovestone Group has hailed the so-called reformation of the Communist International as a vindication of the line of the Lovestone Group that the Communist International could be reformed.

Furthermore Lovestone declared that the change of line of the Communist International paves the way for unity of the revolutionary forces in the Communist International.

The CLAIMS OF COMRADE LOVESTONE ARE THE FOLLOWING:

1. The Comintern has made a United Front In France with the Socialists.
2. In Germany the Comintern has called for the Liquidation of the Red Unions (But the Red Unions were long ago liquidated by Hitler this Lovestone forgets)
3. That the Communist Party of Germany has conferred with the Brandlerites, the Lovestone opposition in Germany on the basis of equality.
4. The Brandlerite Opposition and the Communist Party of Germany have concluded an agreement to collaborate to build up illegal trade unions, to fight fascism and to make united fronts.
5. That these developments are a step forward towards unity with the Communist International.
6. That all that is necessary is,for the Communist International to AGREE TO ALLOW DELEGATES FROM THE LOVESTONE GROUP TO GO TO MOSCOW TO ATTEND THE SEVENTH WORLD CONGRESS OF THE COMMUNIST INTERNATIONAL AND EVERYTHING WILL BE SETTLED SATISFACTORILY AND ALL THE LOVESTONEITES WILL BE TAKEN BACK INTO THE COMMUNIST PARTY AND THE COMMUNIST INTERNATIONAL UNDER THE LEADERSHIP OF STALIN.

The main claim to all these important claims is what Lovestone has widely advertised as the block between the Communist Party of Germany and the Communist Party Germany (Opposition) the Brandlerites. ABSOLUTELY NO POSITIVE FACTS OR PROOFS ARE PRESENTED TO CONVINCE, LEAVE ALONE PROVE THAT SUCH A BLOCK ON THE BASIS THAT LOVESTONE DECLARES, WAS EVER ENTERED INTO BETWEEN THE BRANDLERITES AND THE COMMUNIST PARTY OF GERMANY.

THE COMMUNIST INTERNATIONAL HAS NOT CHANGED ITS LINE. THE REGIME OF STALINISM HAS NOT COME TO AN END. THE THEORY OF SOCIAL FASCISM HAS NOT BEEN ABANDONED. THE COMMUNIST INTERNATIONAL WILL NOT DEAL WITH COMRADES WHO HAVE A DIFFERENCE OF OPINION AS EQUALS OR AS COMMUNISTS. THE PUPPET SYSTEM IS NOT BEING ABOLISHED. IF LOVESTONE WANTS TO GO BACK TO THE COMMUNIST INTERNATIONAL WHY HAS HE NOT THE COURAGE TO CAPITULATE AND SWALLOW STALINISM HOOK LINE AND SINKER AS HE IS NOW PREPARING FOR HIS GROUP TO DO.

THE MAIN STAGES IN THE DEVELOPMENT OF THE COMINTERN

****

PUBLICATION
LIBRARY OF CONGRESS
SEP 19 1978

Introduction

The theses introduced here should satisfy the urgent need of propagandists. They give in a condensed form the outline of the principal stages in the development of the Communist International for the past ten years. The theses are not meant to serve as a reference book on the actual history of the Communist International, but what we had in mind was to offer the reader a retrospective view of the past ten years development of the general staff of the international proletarian revolution. Our object was quite definite: to draw from the rich revolutionary past of the Communist International those lessons which may help to solve the still greater problems of the next revolutionary decades.

Properly speaking this task may and ought to be accomplished to the fullest extent by a history of the Communist International worked up on proper scientific lines. It should include a study of the development of the international economic relations for the last quarter of a century and the development of the social and political changes arising therefrom. It should make a study and unfold the rich revolutionary history of the Communist International including the work of its 50 or so sections, give a picture of the class battles of the proletariat as well as the oppressed peoples against imperialism, for the establishment of the Dictatorship of the Proletariat, for World Communism. This would show how the ideas of revolutionary Marxism-Leninism are gradually taking hold of tens, hundreds, thousands and millions of proletarian and oppressed people, liberating them from the reformist delusions and prompting them to storm the buttresses of capitalism. It would show how the young Communist Parties developing out of this revolutionary struggle and placing themselves at the head of it, unite in the Communist International, thereby turning this outwardly disunited but inwardly united struggle into a world revolutionary torrent of the international proletarian revolution which shatters world imperialism, breaking its front, widening its breaches, preparing the final victory of the proletariat, the victory of the ideas of Marx and Lenin. Such a history would thus appear as a world history of the new era in the development of mankind; a history inwardly well knitted together, and objectively well founded. It would show with well-reasoned argument the errors of the vanguard, their causes, as well as the causes making for the removal and disappearance of these errors -- in brief, it would show the difficult process of the Bolshevization all over the world of the proletarian vanguard, bolshevization that is becoming the powerful battering-ram in the proletarian struggle, quickening the process of world revolution. This would have given the most clear exposition of the basis of the Comintern today, its line, its policy; it would show to the proletarian fighters in all corners of the globe that they are taking actual part in the greatest creative, collective work--unparalleled in history -- in the work of destroying the shaky, rotten, reactionary burden of Imperialism and capitalism which are still powerful and in the work of building up the new socialist society, the Communist society. Everyone of these fighters would have conceived most clearly the international inter-dependence of his revolutionary Communist activity. The contemporary tasks of the Communist International would have appeared to every one of them as the well-founded practical needs of the proletarian movement, of which every one of us forms a particle on its numerous fronts.
